

# Endoscope Detachable

## General information about Police Security Endoscope Detachable insert Tube AD-V2129

- ✓ Detachable tubes for different diameters.
- ✓ Portable and one-hand operation.
- ✓ Rated IP67 waterproof(probe,tube)
- ✓ Sync up with PC for real time picture.

### Product Details

- This series Videoscope is with strong functions like HD camera and replaceable tube.And it is available many fields.

## Technical specification of the device:

- **Replaceable Insert Tube:**Users can easily replace the spare insert tube.
- **Remote Connection:**Connect with computers and remotely view the situation of measured object in real time.
- **Camera Diameter(mm):**Φ6mm/3.8mm/2.8mm
- **Camera Material:**Titanium alloy
- **Camera Pixel:**450,000
- **Depth of Field:**10-100mm
- **Angle of Field:**120°
- **Illumination:**20,000lx at a maximum, adjustable
- **Bright/Chroma/Contrast Ratio Adjustment:**Manual bright: six levels, chroma and contrast ratio: manual adjusting
- **Bending Control:**360° manual omni-directional control
- **Bending Angle:**≥160°
- **Effective Working Length:**1.0m/1.5m/2.0m
- **Insert Tube:**Quadruple tungsten-braided tubes
- **Protecting Device of Durability:**Buffer protection device between the host and wear-resistant tube
- **Display:**Highlight 3.5 inches TFT LCD
- **LCD View Angle:**85°
- **Image Resolution:**720\*480
- **Memory:**Standard TF card:8G, Maximum: 32G
- **Data I/O port:**Micro-USB port、 Video output port
- **Waterproof:**Camera/Object glass/ Tubes: IP67
- **Host Working Time:**≥4 hours
- **Weight:**≤0.55kg (with batteries)
- **Power Supply:**LG or Samsung Rechargeable lithium battery
- **Battery Capacity:**4.2V 2200mAh
