

Leakage Gaz Detector

General information about ADSF-3000 Leakage Gaz Detector

ADSF-3000 gas leak detector is used for detecting SF6 gas qualitative leakage.

Features:

- ✓ Handheld, Easy to operate
- ✓ Ergonomic design, Rubber cushion grip on handle
- ✓ One Touch Reset and Keypad Controls
- ✓ Advanced DSP
- ✓ Visual leak indicators
- ✓ Variable frequency audible alarm, Mute button
- ✓ Flexible stainless steel probe head
- ✓ Detects all halogenated refrigerants
- ✓ Battery Test, Low Battery Indicator
- ✓ Molded carrying case

Technical Specification of the device:

Ultimate sensitivity:

- Sensitivity Levels: 7
- Sensing Tip Life: About 20 hours
- Leak Indicator: 3 color, 6 segments, 18 levels
- Power Supply: 3VDC, 2 “C” alkaline batteries
- Battery Test: True voltage indication
- Battery Life: About 30 hours
- Operating Temperature: 0 to 50°C
- Probe Length: About 355mm
- Dimension: About 229×57×57mm
- Weight: About 560g
