

Gas Leak Detector

General information about ADSF-3000GD Gas Leak Detector (SF6 Concentration)

ADSF-3000GD Quantitative High Precision SF6 Gas Leak Detector is special designed according to customers' requirements and actual situation of power system, which owns features of high sensitivity, good stability, high speed, easy operation and large moving range.

It's a good device suitable for power supply department, installation and overhaul unit, power test institute.

Technical Specification of the device:

- ✓ Measurement Range: 0.01ppm-500ppm
- ✓ Response Time: < 3s
- ✓ Indication way: LCD digital display and sound light signals
- ✓ Vacuum pump speed: 0.5 L/s
- ✓ Vacuum tube length : 4m
- ✓ Continuous working time : < 4 hours
- ✓ Working condition : AC 220V 50HZ
- ✓ Temperature 7°C-40°C
- ✓ Relative humidity < 85%
- ✓ Power : About 180W
